

Cool-It Insulating Mat™

The lightweight Cool-It Insulation Mat™ is ideal for floorboard or firewall installation. It is also perfect for use indoors, under hoods, above transmission housings, and more. Use it wherever heat and sound are a problem.

STEP-BY-STEP INSTALLATION INSTRUCTIONS

- Step 1:** Trim to fit using scissors or a knife. Edges can be sealed with seam tape (Prod. #13997)
- Step 2:** Use our Heavy-Duty Spray Adhesive (Prod. #12005) for low heat applications (surface temps of 250°F or lower)
- Step 3:** Drill 1/4" holes and use the supplied fasteners for higher heat applications (250°F or higher)

Installation HINT:

Please install with the embossed, diamond-patterned side, facing away from the heat source.
