

PRODUCT SPECIFICATIONS
PART# 16800, 16850 ARAMID

GENERAL DESCRIPTION: Aluminized fabric is woven with an Aramid/glass hybrid yarn, and has an aluminized film bonded to one side of the fabric.

APPLICATIONS: Typical applications include muffler covers, header blankets, sleeving, heat barrier.

Recommended for applications requiring heat reflectivity and protection from sharp objects.

PROPERTIES:

WEIGHT.....	19.0 oz/yd ²
CONSTRUCTION (Warp x Fill)	20 X 11
WEAVE.....	1 x 1 Plain
THICKNESS.....	0.062inches(57mils)

TEMPERATURE: Continuous temperature to 750° F (400° C). Can reflect 90% of radiant heat up to 3000°F.
