

**Product Specifications**  
**Exhaust Insulating Wrap**  
**Part #'s 11041, 11042 (Carbon Fiber)**  
**Part #'s 11061, 11062 (Platinum)**  
**Part #'s 11071, 11072 (Ricochet Black)**

**Continuous temperature:** 1200°F **Weave** Plain Weave 2 Ply **Construction** 42 x 5 (x2)

**Thickness:** 0.025"

**Sizing Type:** AminoSilane

**Breaking Strength:** Warp – N/25MM >6000

Fill: – N/25MM >3000

**Moisture Content (Fabric):** <0.3

**LOI, also sizing content:** 0.4 – 0.6

**Combustability:** Pass

**UV Stability:** 6

**Color Fastness:** 6

**Coating:** Polyurethane

*Superior Strength and Abrasion Resistance even at temperature.*

*Coating improves fabric stability and seam strength when cut, punched, or sewn.*

Improve Horsepower

Reduce under hood temperatures

Modern Carbon Fiber appearance

Withstands 1200 deg F
