

THERMO-FLEX™

Composite Heat Shield Sleeving
Containment for Hoses and Wiring

Abrasion Resistant Thermal Insulation

Can be slit for easy application around wires and hoses

**NOT FOR USE ON EXHAUST
PIPES OR HEADERS**

INSTRUCTIONS

- Use razor knife to cut sleeving to length required
- Slide on or slit the tube down the side with scissors
- Place around existing hose or wiring
- If slitting is required for installation, gently open slit to required width. DO NOT over-bend when opening.
- DO NOT compress beyond original diameter when closing
